Attention: Dave Sullivan, Chief Inspector

Subject: Acceptance of FAA Supplemental Type Certificate (STC) No. SB04407AT

This is in response to an application from the FAA dated February 28, 2018 requesting Transport Canada approval of the subject STC.

In accordance with our current policy associated with the review of foreign STCs, some STCs applicable to certain categories of aircraft may be accepted solely on the basis of their foreign certification, and do not require the issue of a corresponding certificate by Transport Canada. The subject STC falls within these criteria.

This STC will be entered in the national index of STCs that have been reviewed and accepted by Transport Canada for installation on Canadian-registered aeronautical products.

The national index of STCs can be viewed at the following Web page: <http://wwwapps.tc.gc.ca/saf-sec-sur/2/nico-celn/>

This letter confirms formal acceptance of the referenced STC as described below by Transport Canada.

| STC Number | Description                                                                                                                    | Date of Issuance   |
|------------|--------------------------------------------------------------------------------------------------------------------------------|--------------------|
| SB04407AT  | Installation of the Digitool DBI3 balloon flight instrument in Canadian Type Certified models listed on page 2 of this letter. | September 06, 2017 |

Sincerely,

Paul Garner
